

RED BALL MOVEMENT

WHAT'S YOUR RED BALL

DIANNA DAVID has lived many lives to tell. After leaving a successful, yet passionless, career as a mechanical engineer, a chance encounter with a little red ball changed her life forever. It wasn't until she quit her job and turned her passions into purpose that she started reinventing her own definitions of success. Thus was born, "The Red Ball Movement", with the mission to question, "What's YOUR red ball?"
